AgriSciMont

AgriSciMont - Fostering a Science-based Development of a sustainable Montenegrin Agriculture

The AgriSciMont project aims at strengthening the Biotechnical Faculty's in Podgorica already excellent research capacity through technological enhancement of human resources, partnership and a reorganisation around 3 interdisciplinary research areas (food and feed safety, agro biodiversity conservation and agro-analyses) to converge towards excellence on “Fostering a Science-based Development of a Sustainable Montenegrin Agriculture”.

The Action Plan is made of 6 Work Packages:

- Technological capacity-building;
- Human resources capacity-building and life-long learning;
- Mobility trainings;
- Excellence visibility and research strategy;
- Consolidation;
- Dissemination and Management.

The AgriSciMont project is supported by 7 bodies and will imply 5 collaborative partners from Sweden, Austria, Germany, the Netherlands and Slovenia.

Each partner will actively participate to dissemination activities, management and mobility trainings.

Measurable results are: 30 new pieces of equipment; 3 experienced researchers hired; 5 scientific and 8 support trainings; subscription to 6 scientific journals; two-way mobility trainings (43 researchers from BTF for 64 weeks; 20 people from partners for 21 weeks); intensified services; 3 farmers' days, 4 workshops, 2 international conferences; a long-term RTD strategy; attendance to 3 international conferences; an open day; a web-site, 9 newsletters; 1 interim and 1 final report.

The expected impacts are an increase of scientific excellence on top EU and national priorities, a step towards a more integrated national and regional system, the recognition of BTF as the best agricultural research centre in Montenegro and the increase of its quality excellence, visibility in the ERA and attractiveness of the research activities.

PROJECT INFORMATION

COORDINATOR: University of Montenegro
Biotechnical Faculty Podgorica (Montenegro)

DURATION: 36 months
TOTAL COST: 1 247 619.46 €
EC CONTRIBUTION: 1 112 785.68 €
